

# Series 05-700

# Diaphragm Seals

## Series 05-750 Tri-Clamp®

ENFM chemical seals provide protection for bourdon tube pressure gauges, switches or transmitters. The unique design of the seal lends itself to applications involving corrosive, contaminated, hot or highly viscous process media such as those typically found in the food, biotechnology and pharmaceutical industries.

### Execution

- Instrumentconnection:** stainless steel AISI 316
- Diaphragm:** stainless steel AISI 316, welded
- Procesconnection** 1 1/2", 2" or 2 1/2" Sanitary Quick release clamp piping system

Diaphragm, Procesconnection stainless steel 316

Series		05-750 Clamp	05-750 Clamp
Instrument connection		1/4"NPT	1/2"NPT
Process connection	max. pressure rating		
Article number		O51	O51
1 1/2"	600 psi	<a href="#">331144002</a>	<a href="#">331144004</a>
2"	600 psi	<a href="#">401145002</a>	<a href="#">401145004</a>

## Options

Clamp to SMS standard, Din 11851

To order, add process connection code after article number, example: [O51331144002](#)
